

Providing Comprehensive School Security Solutions

From private daycare centers and small elementary schools to large university campuses, TSI customizes campus security solutions that will fit your needs and your budget. As crime rates on school campuses continue to increase with every passing year, we want to help protect our students and secure our school staff, faculty and property. Video surveillance has become a vital resource for schools in order to obtain hard evidence for use in criminal investigations, act as a deterrent for theft, assault, and vandalism; and overall provide greater visibility of campuses to school security staff. We understand the challenges of school and campus safety and will design a comprehensive security system that will be user-friendly, efficient and cost-effective.

Remote and Centralized Security Management

- ✱ Utilize centralized management of cameras across a district, while authorized users only see cameras at their specific campus
- ✱ Authorized staff are able to simultaneously access images and reports, and easily share them with other school and university campuses across the nation
- ✱ Access live and recorded video and receive alarm notifications using any authorized mobile device
- ✱ Monitor and configure all features of your security system at any time through a secure network

Video Surveillance

- ✱ Strategically placed cameras provide complete coverage across any campus; hallways, lab facilities, cafeterias, bus entrances, parking lots, sports fields, etc.
- ✱ Real-time video allows school security personnel to immediately identify the location of an alarm and the individual or asset involved in the event
- ✱ Use live and recorded video to quickly and accurately identify false liability claims to avoid higher insurance premiums
- ✱ Easy search and playback recorded video allows security staff to review and assess injury incidents, harassment, and improper procedures

- ✱ Video surveillance and people-tracking analytics provide complete situational awareness in the case of natural disasters, bomb threats, or an intruder
- ✱ Maximize video coverage of parking lots, building entries, and sports fields with special cameras that handle low or harsh light in order to deter intrusion, theft, and vandalism
- ✱ Utilize cameras with license plate recognition capabilities to easily identify vehicles by plate, make, model and color
- ✱ Mobile video solutions for school buses help reduce bullying and harassment, while providing easy location of the vehicle in the case of an emergency

Access

- ✱ Utilize full perimeter lockdown systems to immediately restrict access and allow security personnel to locate necessary individuals quickly
- ✱ Restrict and monitor foot traffic through school entrances and exits using authorization codes, access cards, or biometrics for better security accuracy and to reduce re-lock and re-key expenses

Control

- ✱ Monitor access to classrooms, labs, offices, residence halls and recreational facilities
- ✱ Provide identification for library checkout and transportation services, while also tracking visitors, tardy students, staff and volunteers
- ✱ Utilize sexual offender check software with driver's license scanner

We create a comfortable, safe learning environment

Intrusion Detection

- ✱ Rely on effective security integration of access control, panic buttons, and intrusion alarms to immediately notify proper authorities of threats
- ✱ Metal detectors at main school entrances reduce the risk of guns, knives, bombs, or other dangerous metallic objects from being brought onto campus
- ✱ Effective alarm systems respond to tampering of locks, broken glass or breaches of virtual fencing

Fire Alarm & Monitoring

- ✱ Automatic fire detection alarm systems provide the earliest possible warning of fire, and can be integrated into other security systems such as fire alarm/sprinkler, ventilation, access control, elevator control, etc.
- ✱ Receive immediate alarm notifications to security staff before an incident occurs

Mass Notification & Paging Systems

- ✱ Broadcast time-sensitive messages to students, faculty, staff, visitors, parents, media, first responders, and others wherever they are located
- ✱ Improve communication between departments and buildings to increase staff efficiency and productivity

"TSI's intelligent combination of physical access control, emergency notification and video surveillance will serve as a deterrent to theft, vandalism and victimization on your school campus, while also providing increased visibility for campus security staff."

Our Solutions.

- * Access Control
- * IP and CCTV cameras
- * Intrusion Detection
- * Alarm Monitoring
- * Digital Recording Solutions
- * Fire Notification Systems
- * License Plate Recognition (LPR) Integration Systems
- * Metal Detectors
- * Commercial Sound and Paging
- * Life Safety Systems
- * Visitor Management
- * Early Warning/Mass Notification Systems

Your Benefits.

- * Safeguard students, faculty, staff, visitors, and assets
- * Protect perimeters of closed, open, and multi-site campus environments
- * Prevent and manage school violence
- * Reduce safety risks and liabilities
- * Have complete situational awareness in the case of natural disasters
- * Easily identify bullies, vandals, or other offensive behavior

Service Maintenance Agreement (SMA)

Our SMAs provide tangible, value-added services such as:

- * scheduled preventative maintenance
- * user training
- * priority response
- * remote and on-site support
- * additional discounts

A TSI SMA also enables you to budget for your service and maintenance costs in advance; it allows you to plan ahead for future expansions and upgrades of your system, minimizing hassle and unexpected costs.

Why Choose TSI?

As a leading national systems integrator, we practice a unique fanatical approach to customer service, in that we are dedicated to putting our customers' happiness and satisfaction above all else. Our desire is to build **trusted relationships** with each of our customers, and to provide prompt, reliable technical support.

With expanding offices across the nation, we promise to provide **local service** from our highly trained and certified technicians, to ensure quick response times when you need it most. We insist on using only the most reliable products from leading manufacturers, and as a result, we are able to **guarantee all of our installations and services.**

As we continue to set ourselves apart from our competitors through our devotion to **operating fairly and honestly**, we encourage you to contact us, and begin your **free consultation** today.

TSI at a Glance:

- ✓ Customized system design and integration
- ✓ Qualified local technical support
- ✓ Superior customer service
- ✓ Competitive pricing
- ✓ Prompt, accurate quotes. **NO hidden costs and NO change orders within the specified scope of work**
- ✓ Latest technology
